

America's Boating Club® Mid-Atlantic  
**THE VIRTUAL D5 FALL EDUCATIONAL CONFERENCE**

Save the date: **November 4-7, 2020**

### Free Conference Call (FCCall)

Due to COVID-19, the USPS District 5 (D5) Fall Educational Conference scheduled for November 4-7 in Gettysburg PA is being transformed into a series of free online sessions. We will utilize the Free Conference Call (FCCall) Internet Tools to present seminars and allow meetings between members during the Virtual D5 Fall Educational Conference. Sessions begin on Wednesday November 4 and run through Saturday afternoon. The [on-line Session Schedule](#) document provides information on each session, and [FreeConferenceCall](#) web page provides information on available tools.

Members who are not familiar with Free Conference Call, review the web page at - <https://www.freeconferencecall.com/downloads> - to learn how to access the system. Generally, there are three options, connect from your telephone (you will not be able to view seminar material), connect directly from your Internet Browser, or install a local application you download to your computer, tablet or cell phone device. The download will not harm your device and works better for video connections.

- To connect using your device's browser select the "Join Meeting" link where you are directly connected to the FCC session and asked for an Online Meeting ID.
- To use a local application select one of the Download options and follow the installation instructions. FCC provides applications for Windows, MAC, Linux, Android and iOS devices. Then execute the application to join a session and provide the Online Meeting ID.

We will generally use the two Online Meeting IDs for the week. **'D5oddHr'** will be used for sessions starting on an ODD (ex: 1330) hour. **'D5evenHr'** will be used for sessions starting on an EVEN (ex: 1430). Also, the Online Meeting ID is listed with each event posted to the abc-midatlantic.org home page.

We will host a special session on Friday October 30 at 4:00 PM where members can practice using the FCC tools or ask questions about the conference. The Online Meeting ID for this session is 'D5 FCC'. Should you have any issue please call Joe Gibson at 301-503-3206 for help with this initial session.
